NASSAUS METROPOLITAN WINDOW FASHIONS

“Everything your heart desires and your mind inspires” in custom and ready-made window treatments, upholstery, bedding, fabrics, trims, decorative accessories and window hardware can be found at Nassaus Metropolitan Window Fashions, located at 770 Route 17 North, just north of the Ridgewood Avenue exit in Paramus. The business was founded in 1934 and taken over by owner Bruce Heyman in 1999.

The large airy showroom, which recently moved 1.5 miles up the highway from its previous location, is positioned to serve Bergen County residents with free Shop-at-Home decorating services and a knowledgeable sales staff that keeps attuned to the design needs of its many loyal customers.

The store offers a satisfying shopping experience thanks to the depth in stock, displays of more than 500 different types of window fashions, both custom and ready-made, a Hunter Douglas Gallery of shades and blinds and an everyday discount on first quality designer fabrics.

“Our decorators and installers are the most experienced in the business with the knowledge to handle specialty skylights, arched and oversized windows and products like shutters, motorization, complex layered draperies, window film and more,” says owner Bruce Heyman.

Heyman, a third-generation family member to run the business, also operates a store in North Plainfield called Fabricland and recently opened a window fashions shop on the Upper West Side in Manhattan.

All three stores are unique: Fabricland is the largest fabric store in New Jersey, offering more than 1,000 decorator fabrics at wholesale prices, Nassaus displays the most extensive collection of window fashions and styles in the state, and Metropolitan Window Fashions in New York City offers all of the same products and Shop-at-Home decorating services in a smaller, more intimate setting.
